“Blending different types of coffee from various parts of the world is a passionate Italian tradition. Since a single coffee bean cannot possess the complexity necessary for great espresso, we select the best varieties from each coffee growing country that have the best profiles to produce each of the blends of Caffè Umbria. We use up to 15 different varieties, with the bulk coming from Central America, South America, and Africa” - *Emanuele Bizzarri*

*Ask our baristas to create your favourite morning Espresso, Cappuccino, Latte, Mocha or Americano just the way you like it.*
